

SECURITY INFORMATION SHEET GREEN EARTH BRENTONICO

This sheet is giving all information on security conditions for persons and environment for use of our products.

1 – PRODUCT IDENTIFICATION

Name : GREEN EARTH BRENTONICO
Use : Refer to technical uses sheet
Other data :

2 – CHEMICAL COMPOSITION

Composition : Ferrous and ferric silicates and oxides of Potassium, Manganese and Aluminium.

Dangerous ingredients No

Dangerous impurities No

3 – PHYSICAL PROPERTIES

Physical state	Powder
Solubility	Not soluble in water and organic solvents.
PH	3.5 to 6.0
Steam Pressure	n.a
Density	4.5 gr/ml
Other	No

4 - STABILITY – REACTIVITY

Colouring earths are not generating any dangerous reaction and remain stable until 120°C for natural earths and 800°C for burnt earths

5 – HANDLING AND STORAGE :

No Specific precautions

6 – TRANSPORT INDICATIONS

Non dangerous item according to transport regulations

7 – FIRE AND EXPLOSION INSTRUCTIONS

Product is not flammable. If fire occurs in storage facilities, it can be stopped by any available mean, even water.

8 – ACTIONS IN CASE OF ACCIDENTAL LEAKAGE

Product is not dangerous for people as well as for environment

9 – EXPOSURE CONTROL AND INDIVIDUAL PROTECTION
